

eMitter[®] Pro Ecosystem

The finest digital pest control

100% made in Germany

DIGITIZING...

Made in Germany

Our software and hardware are developed and produced in Germany

Long battery life

The rechargeable batteries last up to 3 – 4 years

IP 69 Protection

Protected against all weather conditions

Built for all scenarios

The eMitter® Pro Ecosystem is designed for all sizes of organizations and is infinitely expandable.

The main component of each installation is a controller that sends information to the eMitter® cloud and notifies you via your smartphone.

Any number of eMitter® transmitters can be connected to the controller, both indoors and outdoors.

If the distance to the traps is too great or the connection becomes weak, the range can easily be increased with any number of routers, to cover even the largest corporate buildings.

Necessary components

eMitter® Pro Controller

Receives all signals from the eMitter® system and informs you directly via smartphone.

eMitter® Pro Router

Amplifies the signal from the transmitters by up to 1,500 meters.

Optional components

Outdoor Long Range

- waterproof sensor, developed for outdoor use
- fits perfectly for the Gorilla Traps® rat
- long range: up to 1,500 meters to the controller
- sends a sign of life every day
- no false alarms because of reliable sensor technology

Indoor Switch

- transmitter for stations like SwopBox and SnapBox
- can be integrated into the eMitter® system
- no battery needed thanks to EnOcean® technology
- immediate signal via the eMitter® system in case of infestation

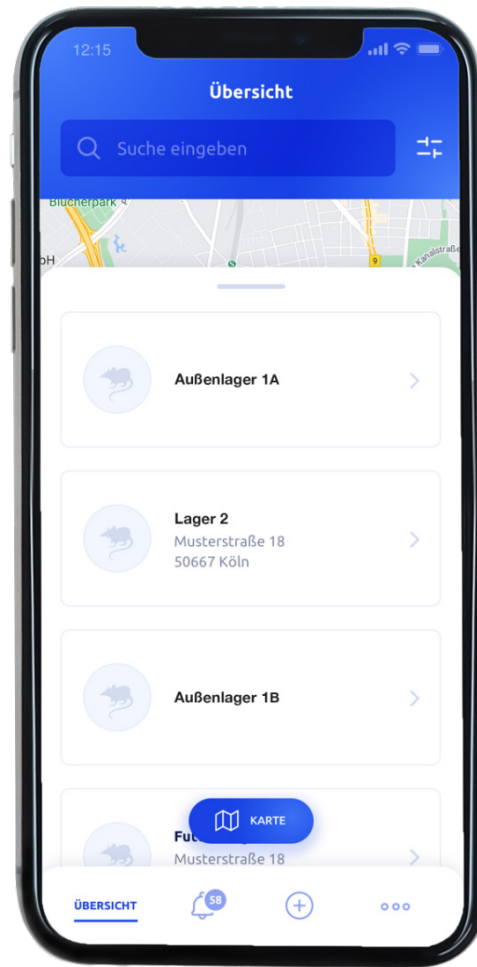

Indoor Rocker

with or without battery

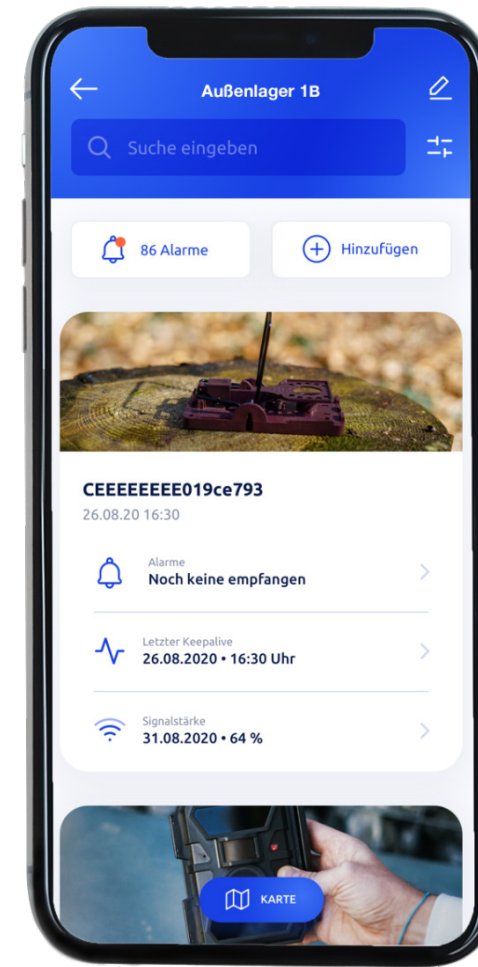

- waterproof and therefore suitable for indoor and outdoor use
- with an adapter bracket suitable for double stations like the Runbox Pro and a foam adapter for easy installation in the stations
- immediate signal in case of infestation (via the eMitter® system)

eMitter[®] App

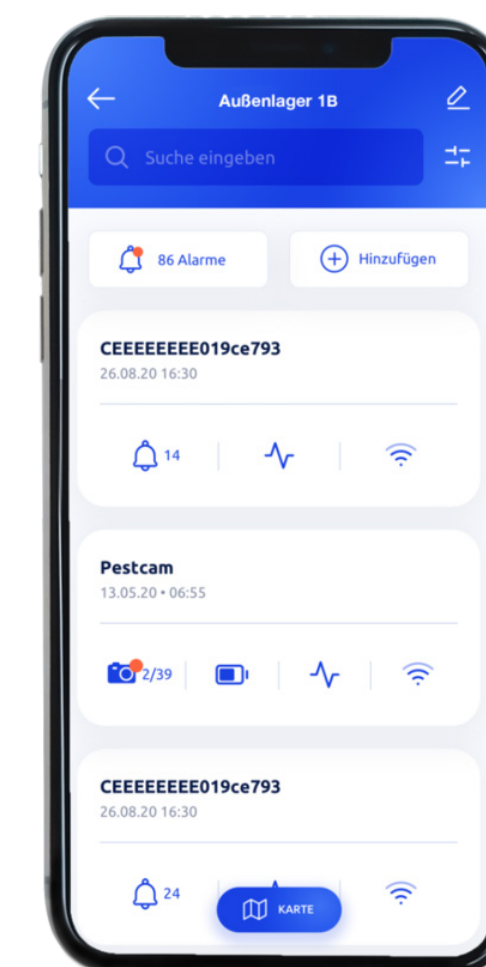

Create and manage

In the central office you can easily create, change and manage all eMitter products.

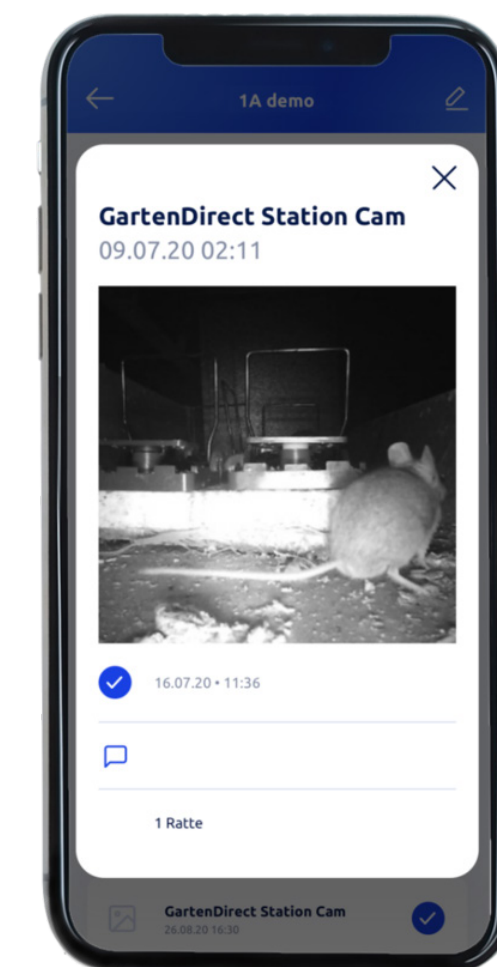

Overview

Keep an overview of all traps, transmitters, routers and controllers installed at your customers.

Control

Check anytime and anywhere if anything has changed in your traps.

Photos

Get pictures taken by the PestCam directly to your smartphone.

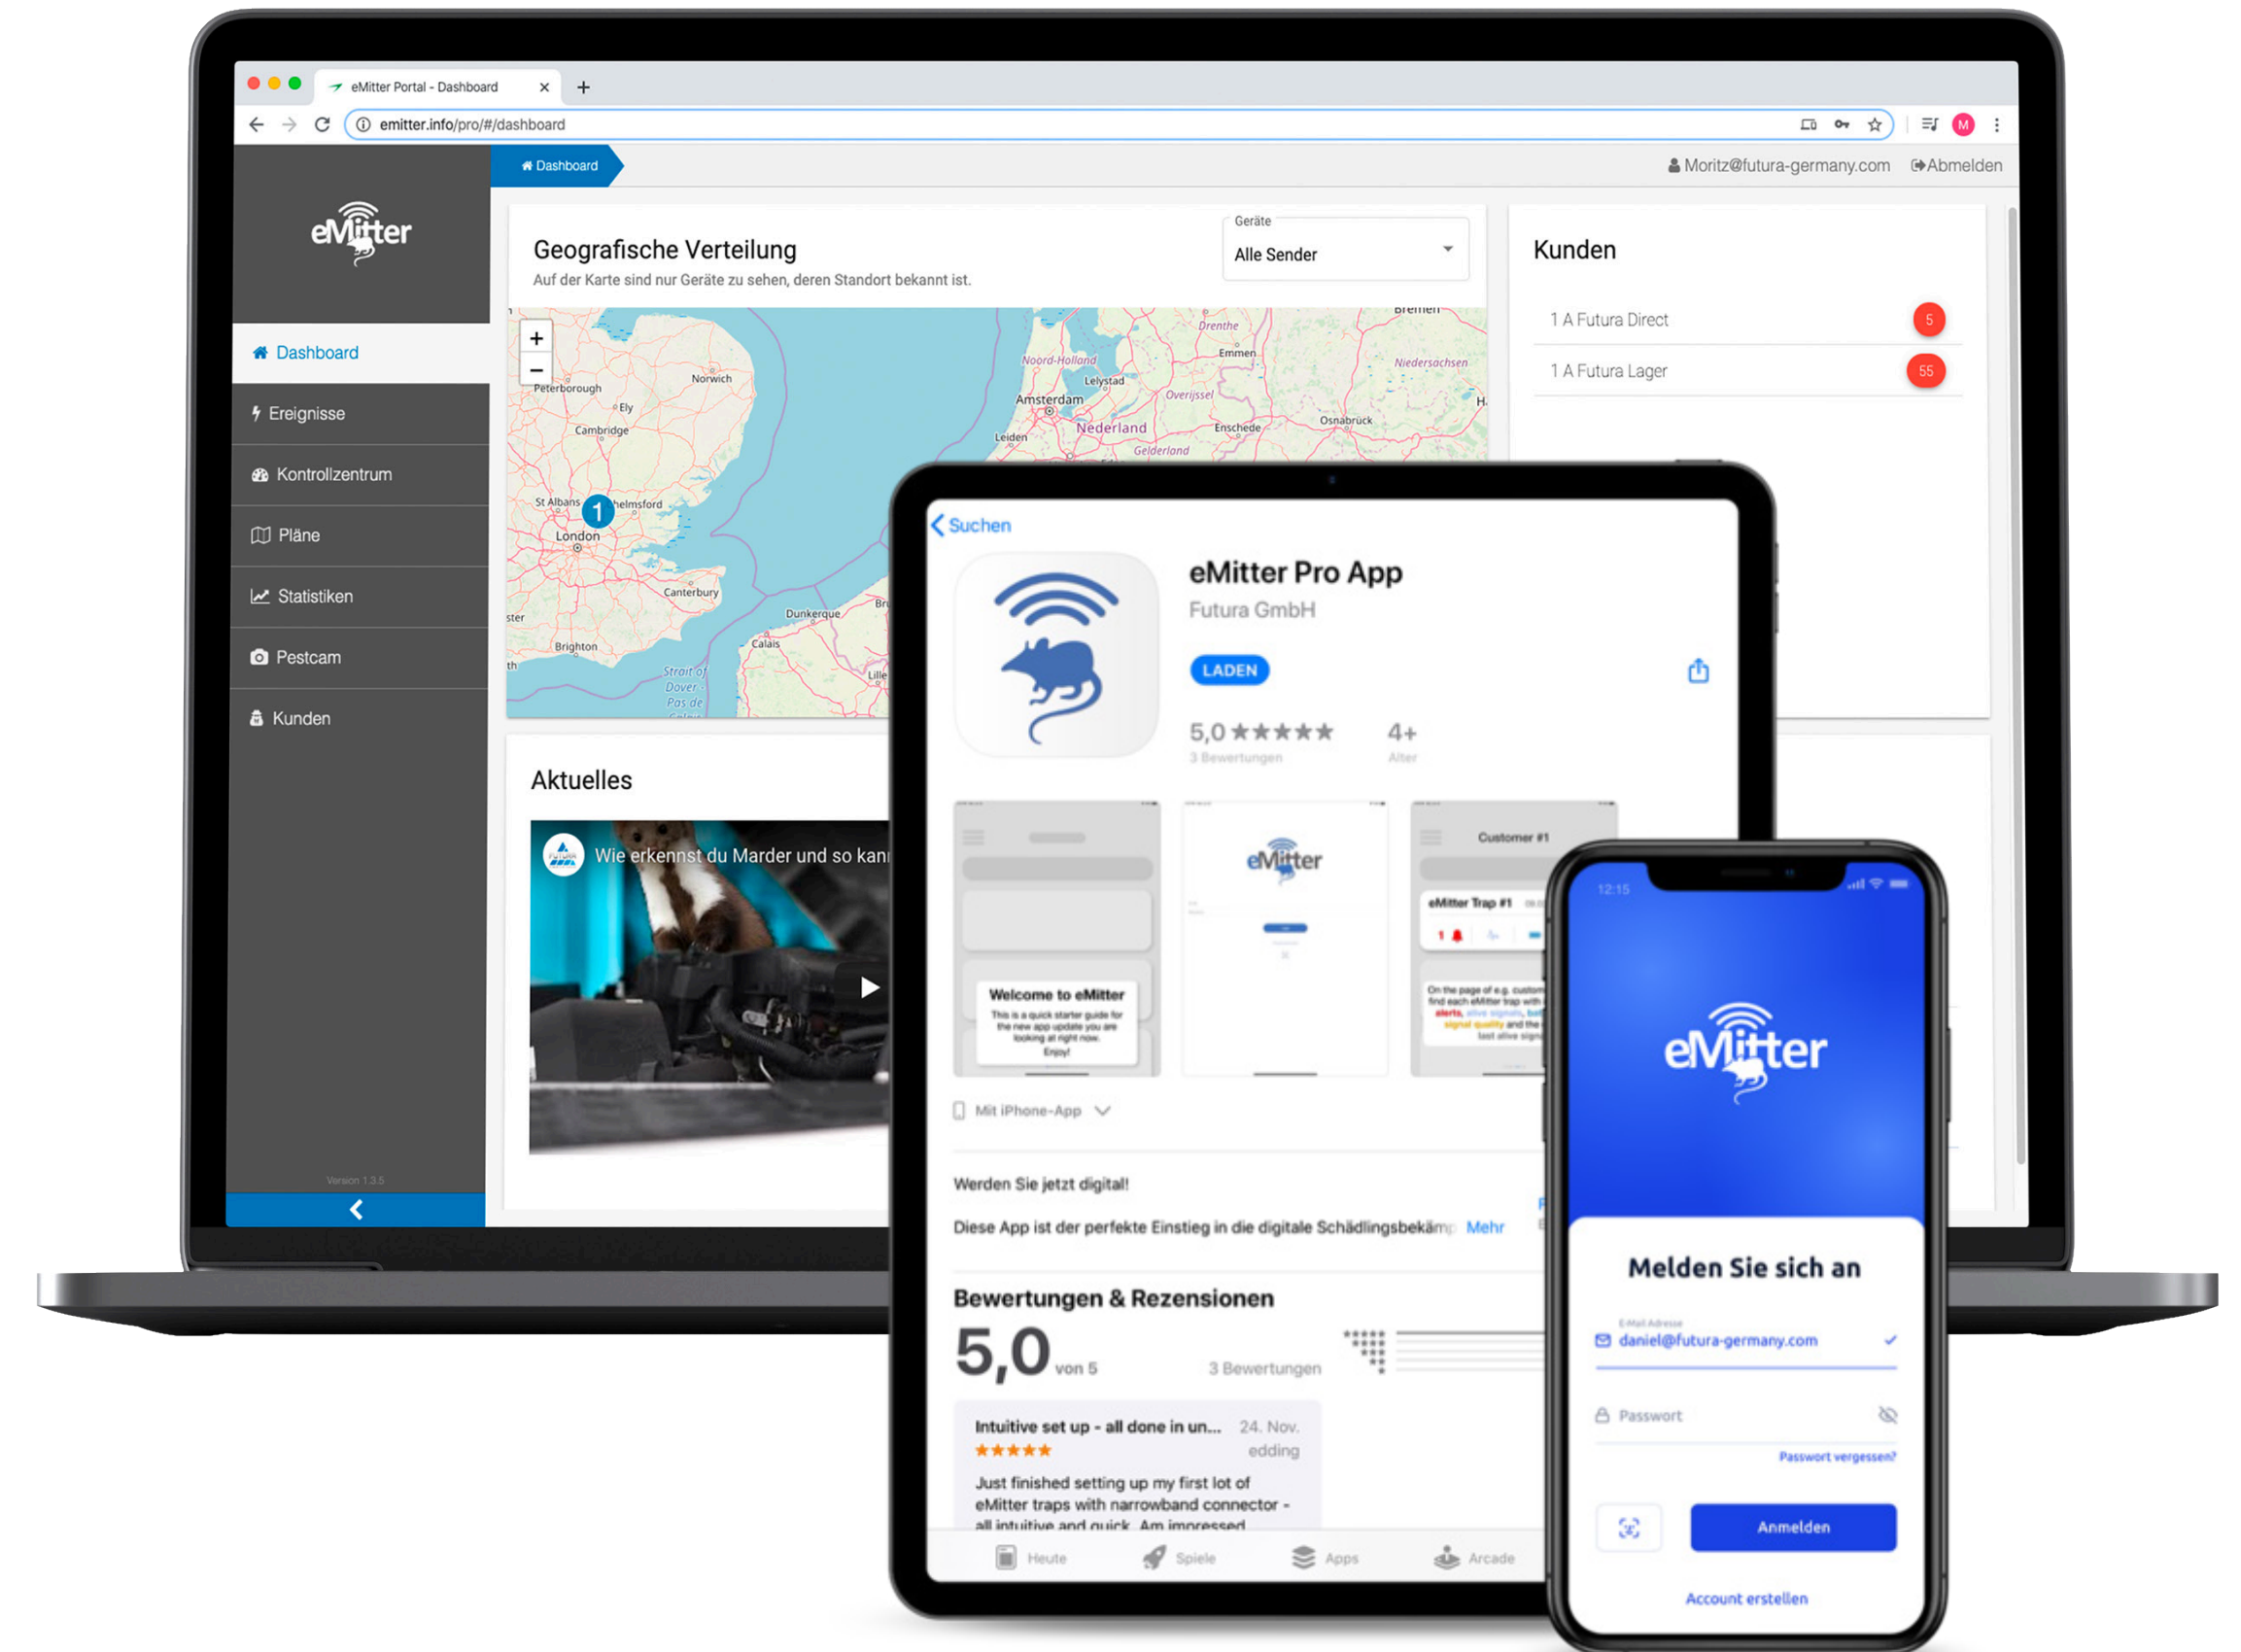

eMitter[®] online portal

Administration, evaluation, statistics

The eMitter[®] online portal offers everything that high-profile demanding companies expect.

It is characterized above all by its simple operation. Here customers are managed, it's characterized by its simple use, infestation reports are retrieved, statistics are viewed and much more. The integration of the individual components such as traps and controllers is easily done on site via app.
