

NARA[®] Monitoring

The finest pest control

100% made in Germany

futura-germany.com

NARA® Monitoring

Versatile in use

Optimal combination possibilities with NARA® Stic, Bloc and Spray.

100% made in Germany

We develop and produce in Germany.

In use worldwide

NARA® is used in over 50 countries.

Digital and allergen-free monitoring

NARA® is used worldwide in the food, pharmaceutical and logistics industries. NARA® is a Best Product Award Winner and the only product in its category officially recognized by leading standards such as AIB and IFS.

Stic, Bloc und Spray

No matter whether you use NARA® Stic for snap traps, NARA® Bloc as a monitor in bait stations or NARA® Spray as attractant spray for rodents - with NARA® you are equipped for perfect monitoring.

Allergen-free

NARA® is absolutely allergen-free and can therefore also be used in sensitive areas such as in the food or pharmaceutical industries.

Strong aromas

NARA® has the right flavour for every taste. Depending on the area of use, rodents react to different aromas. To ensure the best monitoring results, we offer a wide range of different flavours.

Permanent monitoring – safe, efficient and AIB-compliant

AIB confirms that the NARA® Stic, Bloc and Spray non-toxic, allergen free monitoring product fulfils the requirements of AIB International's Consolidated Standards, as they do not attract and feed other pests.

Additionally the Gorilla Traps®, as a standalone version, or in combination with eMitter® digital trap control system and the NARA® products are in line with the requirements of the AIB International Consolidated Standards.

NARA[®] Bloc

Allergen-free monitor to detect and identify rodents. Suitable for every location and every situation.

Depending where used, NARA[®] Bloc has a long shelf life of at least three months. Allergen-free and therefore ideally suited for use in the food industry.

No infestation of the block by insects as with conventional baits. Ideally suited for use in wet areas. No mould formation or decomposition due to moisture. Gnaw marks enable the distinction to be made between rats and mice.

NARA[®] Stic

Perfect fit for Gorilla Traps[®] rat and mouse. Toxic free and insect resistant.

Due to its „mushroom shape“ it fits perfectly into any kind of Gorilla Trap[®] and can be used in an unset trap for highly efficient monitoring. NARA[®] Stic has a shelf life of at least three months, depending on where it is used. It is free of allergens and therefore ideally suited for use in the food industry. The monitor cannot be attacked by insects (flour beetles, sawtoothed grain beetles, cockroaches, etc.) NARA[®] Stic is also ideally suited for use in wet areas. No mould or decomposition due to moisture.

NARA[®] Spray

New scents for rodents.

NARA[®] Stic rodents to your trap or monitoring station. With the spray you can direct rodents to exactly where you want them.
