eMitter® Direct 2.0

## The finest digital pest control
100% made in Germany

The direct transfer

Permanent monitoring

Sends instant alerts when rats are trapped

With Catch / No-Catch Indication

Easy setup

Installed in a few seconds and ready to go

No infrastructure required
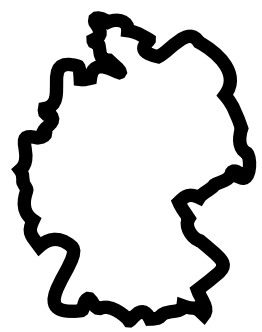

No routers, repeaters or gateways are required

Worldwide connectivity

Has an integrated SIM card and transmits, via the latest radio standards NB-IoT and LTE-M (CAT-M1), signals directly to our cloud.

Built for all scenarios

The eMitter Direct 2.0 is our evolution of the eMitter Outdoor Direct and comes with improved radio technology such as NB-IoT and LTE-M (CAT-M1) developed specifically for the industry. The entire trap is designed and manufactured to the highest quality standards so it can be used in all weather conditions around the globe.

Paired with our human Gorilla Traps, you get a robust and effective trapping system for your pest control business.

Made in Germany

Our software and hardware are developed and produced in germany

Long battery life

The rechargable batteries last up to 5 – 6 years

IP 69 Protection

Protected against all weather conditions

DIRECT 2.0

Radio standard 4G (NB-IoT & CAT-M1)

Battery life 5-6 years

Antenna is located on the circuit board, protected from external influences

Robust and newly revised grey plastic housing

**DIRECT**

Radio standard 2G

Battery life 2-3 years

"External" antenna

Blue plastic housing

eMitter® App

Software first

Receive emails or push messages to the Apple and Android eMitter app, or via our proven web login and even via API interface, directly to your or other softwares.
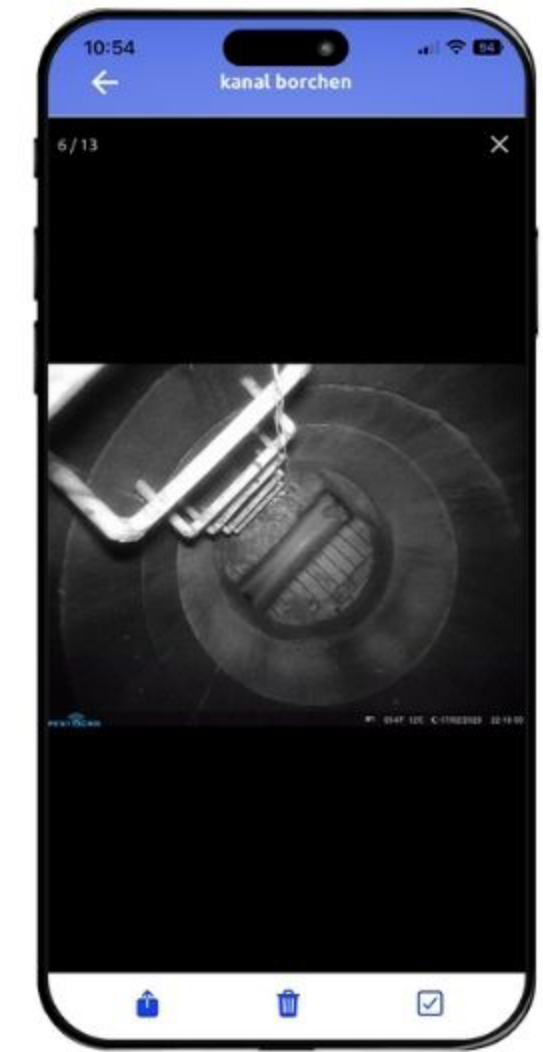

Overview

All traps are visible in a preview image in the app with current status, but also as a clear tile view and distinguishable between: Catch, No Catch, Movement Alarm and more.

Control

Any number of locations and users, heatmap function, email messages and more.

Manage pictures

Save images of exact Trap locations for proper site management and save images of catches online or via app for documentation purposes.

The power of knowing

Traps automatically share their locations

So you can keep track of where they are, even on the largest production sites
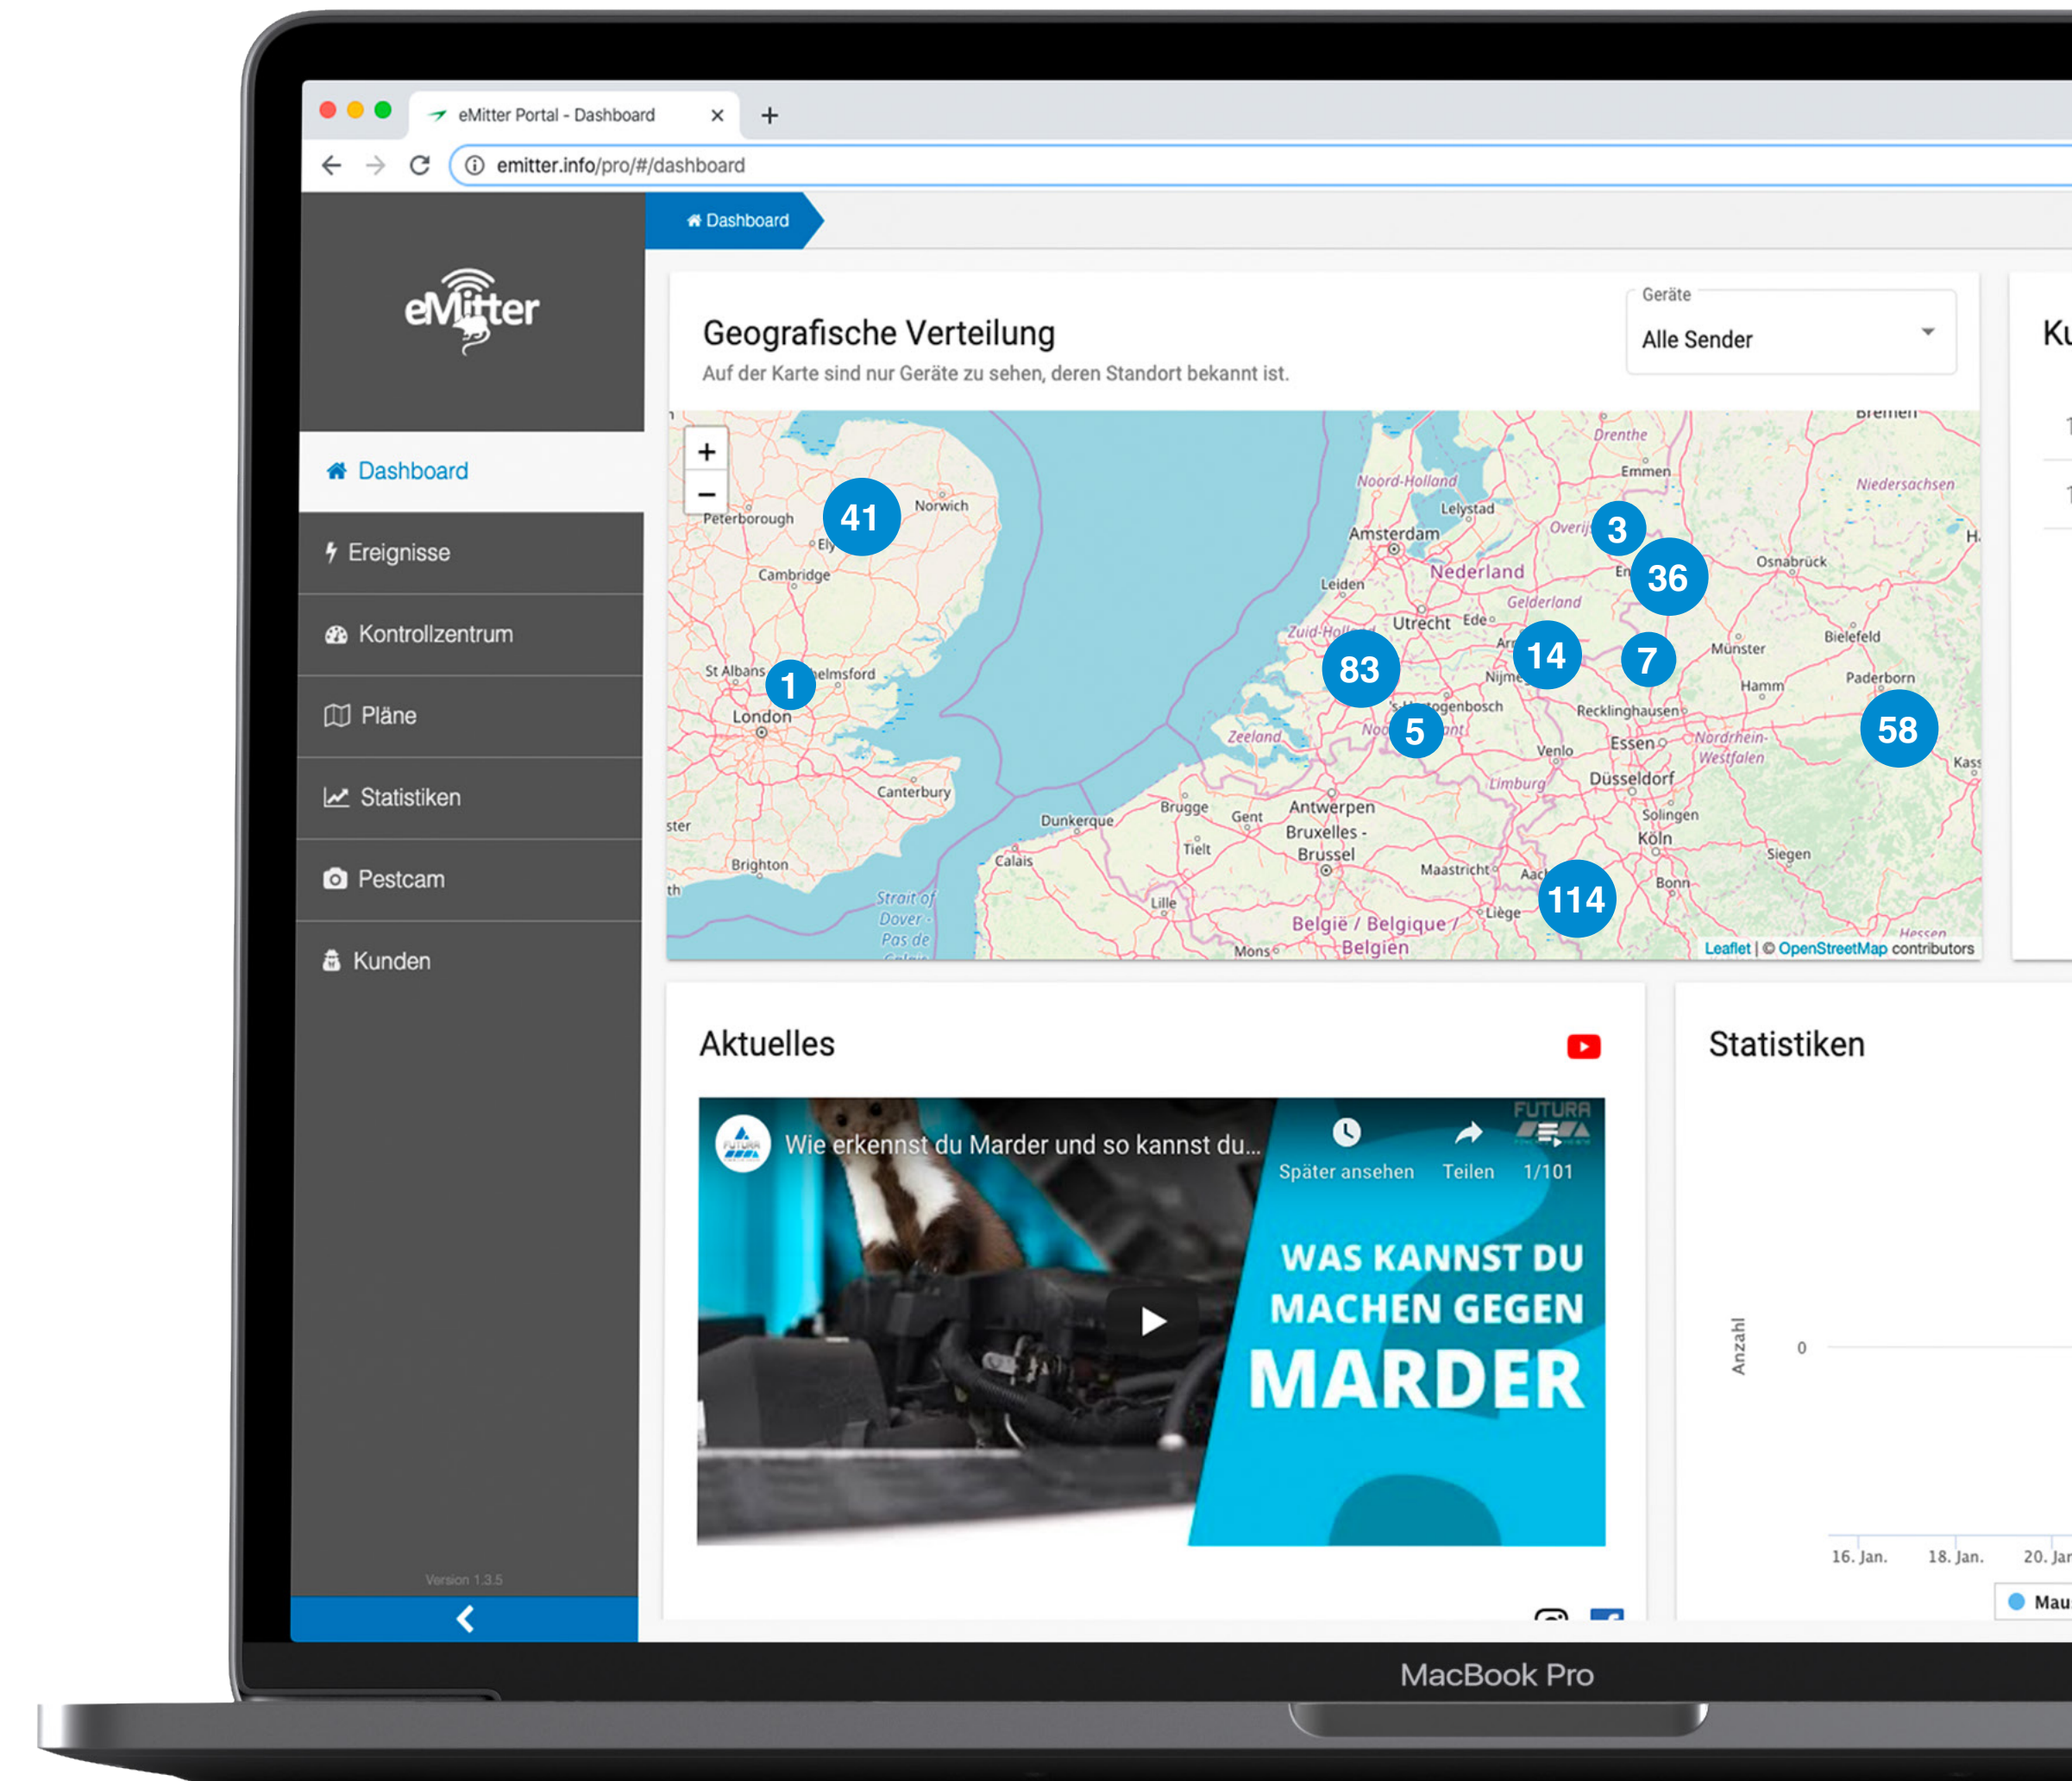

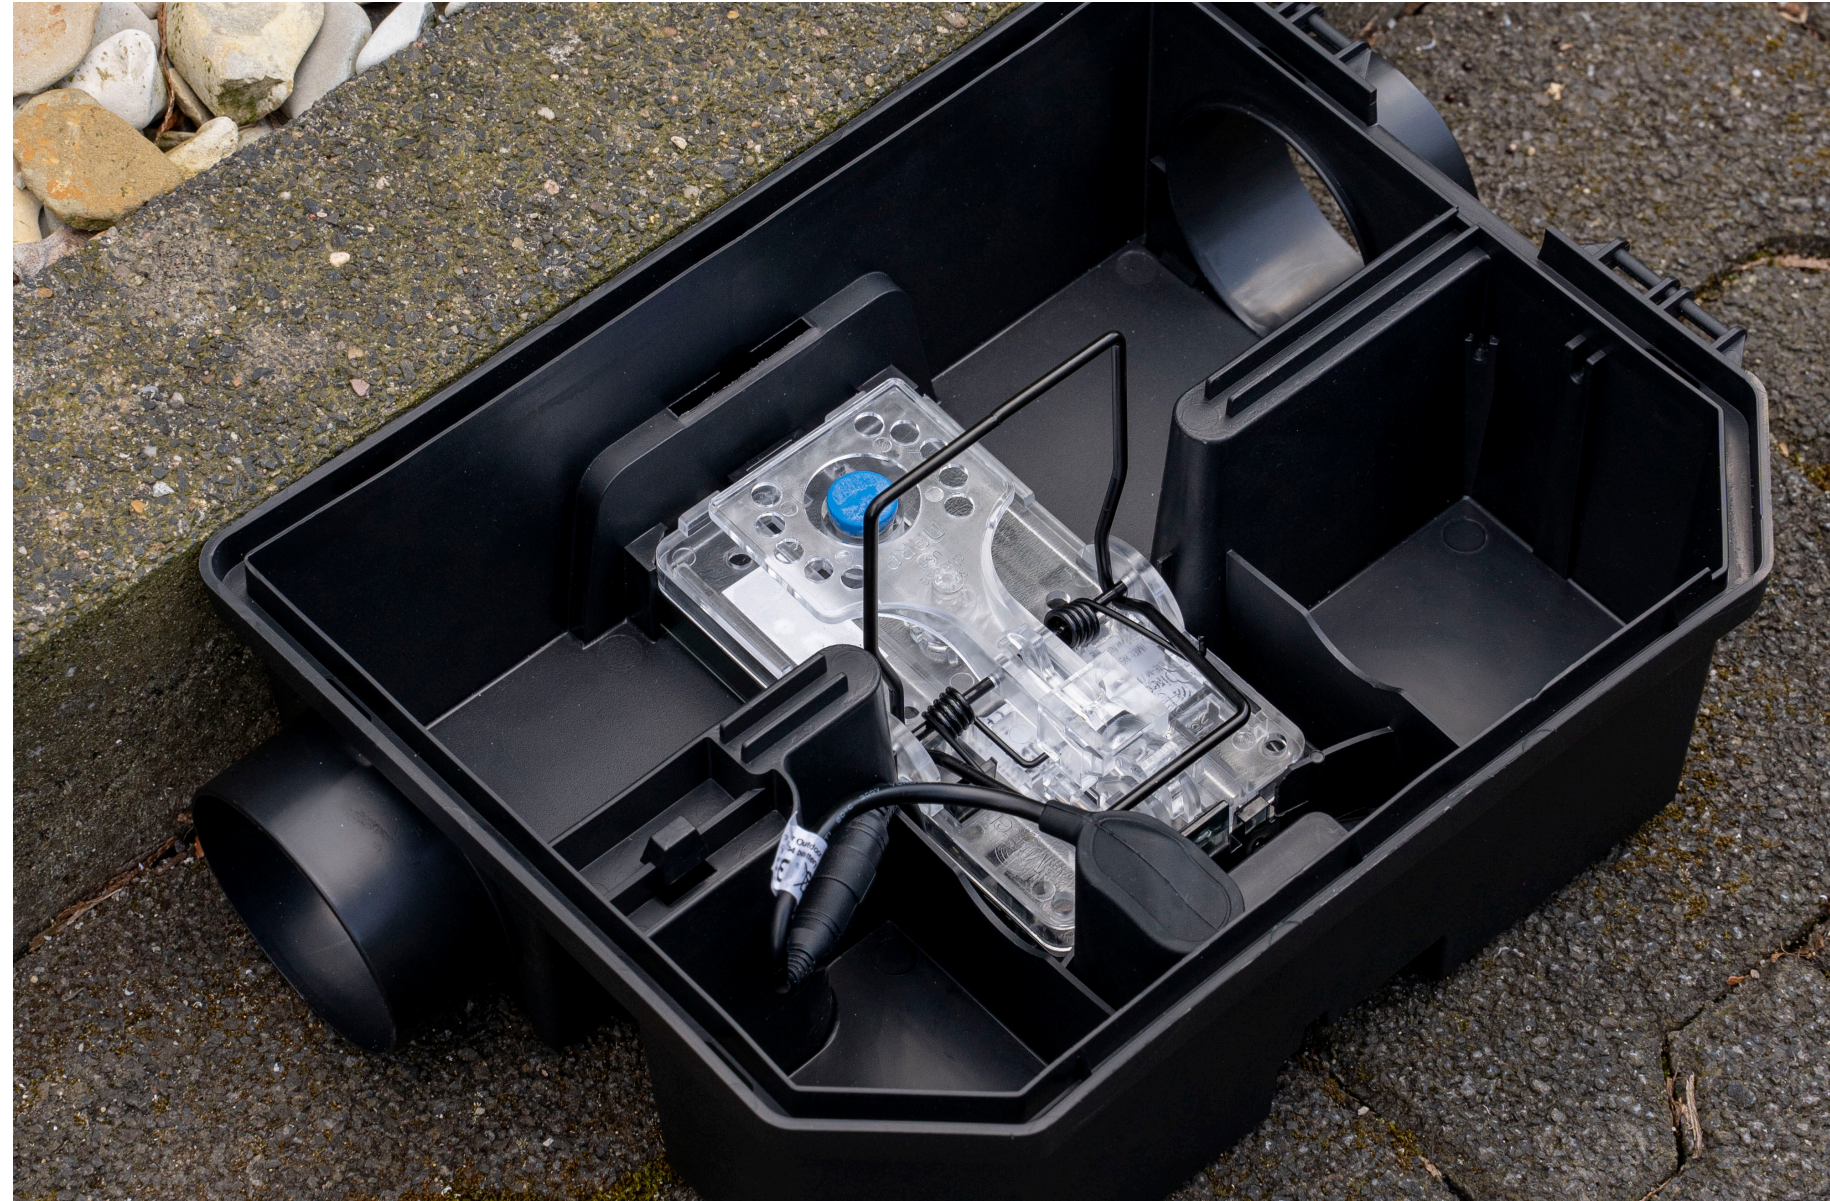

Daily alive signals contain:

- heart-beat signal 24/7
- signal power control
- status update of traps

Find online

- statistics
- easy management of thousands of traps
- user management (client, PCO, manager etc.)
- FAQs

Broad compatibility

Bait boxes

Fits in 6 of 10 bait boxes against rats but can also be used without

Endless options

These are unique white boxes that are already in use in Dubai

Thousands of satisfied customers

120.000+
SOLD WORLDWIDE

IN OVER 50 COUNTRIES

eMitter

OVER 2000 PCO PARTNER

Pioneer in IoT Tech for Pest Control:

Since we've built the first IoT Mouse Trap in 2006, we have reinvested millions of Euros into our business, preparing for the digital future of pest control.

Emitter products are engineered, designed and manufactured in Germany with passion for security and lasting quality.
